Task 3 Reading (5 items*2 marks each=10)

Read the text and choose the one best answer.

Stories about ghosts and other spirits have scared people through the ages. Some ghosts, however, are not to be feared. They are ghost writers. Just as a ghost writer is spirit that you cannot see, a ghost writer is a writer whose name is unseen. A ghost writer is a person who is paid to write a speech, a report, or a book for another person. Usually that other person is famous, but not as a writer. The ghost writer does the writing and gets paid for it. But his name is not on the book as a writer. Instead one sees the name of the other more famous person. The ghost writer exists, but his name is unknown to the public.

Sometimes, famous people want to tell the story of their lives and how they became so successful. This kind of book, written by a person about his or her own life, is an autobiography. The person may have been a great success as a film star, for example. But he may not be much of a writer, so a ghost writer is needed. The writer uses the ideas, memories and life story of the film star to produce a book that seems to be written by the actor. The public may even believe the actor wrote the book. But the ghost writer knows who really wrote it.

- 41. What is the main idea of this passage?

San Francisco in California is a special place, very different from most American cities. It lies on a small finger of land with the Pacific Ocean on one side and a huge harbor on the other. The famous Golden Gate Bridge crosses over the mouth of the harbor. if you live in San Francisco, you can get plenty of exercise

San Francisco's population is only about 716.000, but it is the biggest business center in the West of the USA. It is also America's most international city, with newspapers in 30 different languages. The city is known as "the Paris of the West," "Baghdad by the Bay," and "Gateway to the Orient."
